

Learn more about Dual Credit at CNM

Central New Mexico Community College is the state's largest provider of Dual Credit. High school students can pursue a college degree while still in high school.

CNM has numerous online classes so in these uncertain times students can keep working toward their future.

CNM offers more than 150 certificate and associate degree programs - everything from business to welding. CNM has transfer agreements with many universities so students won't miss a beat if they transfer to pursue a bachelor's degree.

Get started on your journey to a college degree today!
